A fully-revised sheet map covering the whole of Portugal. Part of Philips highly successful European map range, this map is printed on one side of the sheet, making it easy to plan routes and tours. The map is thus ideally suited both for long-distance planning and for easy in-car use. The map features superb cartography giving great clarity at a detailed scale of 1:600,000 (1cm = 6km). The mapping is easy to read and rich in features, including excellent coverage of the road network, and tourist information with campsites and pousadas - government-owned stately homes and castles like Spanish Paradores. The map has a comprehensive index of place names printed on the back of the map.

Main map scale: 16 miles to 1 inch
