This anthology brings together a diversity of readings in the philosophy of language from the ancient Greeks to contemporary analytic, feminist, and multicultural perspectives. The emphasis is on issues that have a direct bearing on concerns about knowledge, reality, meaning, and understanding. A general introduction and introductions to each group of readings identify both the continuities and differences in the way big questions in philosophy of language have been addressed by philosophers of different historical periods, institutional affiliations, races, and genders.

- Phonics : 12 Book Reading Program
- Philadelphia Phenoms : The Most Amazing Athletes to Play in the City of Brotherly Love
