This book explores the critically acclaimed work of the Spanish Hasselblad Award-winning photographer Joan Fontcuberta. Joan Fontcuberta is one of the most inventive contemporary photographers, with a career spanning more than three decades, during which time he has constantly investigated, experimented with, and questioned the photographic medium. His work is distinguished by original and playful conceptual approaches that particularly explore photographic conventions, means of representation and claims to truth. He challenges concepts of science and fiction in interdisciplinary projects that extend far beyond the gallery space. This fully revised and updated volume presents a superbly illustrated overview of the work of the 2013 Hassleblad Award-winning photographer.
